Fundraising Strategies

50/50 DRAWS

When a group indicates they need to raise between \$300-\$1000 a 50/50 draw may be the best route. How does it work? People buy tickets for a chance to win 50% of funds collected from the ticket sales. The other 50% goes towards the charity/organization. It can also be used in combination with other fundraising strategies.

Bowl-A-Thon

When a group or organizations fundraising goals are in the \$3000+ range we suggest a Bowl-A-Thon. How does a Bowl-A-Thon work? It is a pledge based system. Companies, friends and family can support bowlers or teams through pledges. The potential is limitless provided each participant works hard to obtain supporters.

Corporate Lane Sell

Your Organization can solicit Corporate sponsorship. This works best for larger fundraising initiatives. Corporations gladly participate and promote causes that they passionately support.

All of the above can be combined or paired with other strategies such as a silent auctions or raffles. The biggest benefit of a bowling fundraiser is that you give the participants a fun activity to engage in that will translate into more funds raised.
